# CHAMPAGNE

*"I drink it when I'm happy and when I'm sad.  
Sometimes I drink it when I'm alone.  
When I have company, I consider it obligatory.  
I trifle with it if I'm not hungry and drink it when I am.  
Otherwise, I never touch it--unless I'm thirsty." -Lilly Bollinger*

With a storied history, Champagne is produced at the limits of modern viticulture and is more a result of a process than a place. The method champenoise--characterized by a second fermentation in the bottle-- is precisely how Champagne gets its bubbles, and, combined with a marginal climate and a uniquely chalky soil, the results can be stunning. We at Harvest have always been believers that any meal worth remembering starts with bubbles. Allow us to make believers out of you as well.

## DOMESTIC WHITE

*Chardonnay*- certainly one of the most-planted grapes in the world, Chardonnay has as many expressions as there are places that grow it. California has long been the benchmark for the traditional American expression, which is associated with a richer, riper style, although now many producers are exercising restraint and bringing elegance to the forefront. Producers elsewhere in the US are following suit, allowing the grape to reach its full potential in the vineyard and speak for itself in the bottle.

233	GROTH, NAPA VALLEY 2018	62
235	MASSICAN, NAPA VALLEY 2018	81

*Chenin Blanc*- native to the Loire Valley, this varietal’s natural acidity means that it can maintain its freshness easily in a warm climate. In California, this acidity combines with ripe fruit flavors and a honeyed mouth-feel, making it a suitable aperitif and a perfect companion to many different courses.

## FRENCH WHITE

*THE LOIRE VALLEY*- Situated around the longest river in France, the Loire Valley is an enchanting place that has been largely untouched by time--the wines are much the same as they were a century ago. With a focus on acidity, these wines are meant for the table. The valley offers as diverse a selection as anywhere in the world and we have gathered a focused expression of the best each area has to offer.

*Sauvignon Blanc*- the grape thrives on the chalky mineral soils of the Eastern Loire, and in certain places you can find pockets of flint, locally known as *silex*, that help lend the grape its most unique expression in the world.

305	DOMAINE RAIMBAULT-PINEAU, POUILLY-FUME "LES LUMEAUX" 2018	87

*Chenin Blanc*- not as racy as Sauvignon Blanc, Chenin finds its most noble representation on the Loire, sometimes with just a hint of sweetness to tame its driving acidity.

309	DOMAINE HUET, LE HAUT-LIEU, VOUVRAY SEC 2017	89

313	DOMAINE PATRICK BAUDOUIN, "LES GATS," ANJOU 2014	123

*ALSACE*- heavily influenced by the Vosges mountains, this is the sunniest area in all of France. The sunlight helps mitigate the northern climate and provides a unique influence on the grapes that thrive here.

*Riesling*- acid-driven with bright, lifted aromatics, these tend to be drier than their German counterparts.

321	PIERRE SPARR 2017	44
323	TRIMBACH, RESERVE 2015	76

*RHONE VALLEY*- this region has played a big part in the history of wine; divided into a northern and a southern half, it brings a wide variety of styles to enjoy. Known more for its red wines, the whites of this region can hold their own, providing rich and intense fruit.

325	MICHEL CHAPOUTIER, "LES GRANITS," SAINT-JOSEPH 2015	157

# FRENCH WHITE

*BURGUNDY*- perhaps the most sought-after whites in all the world, nowhere else is there so much diversity in one grape. From Chablis to the Macon, the differences are staggering while the grape remains the same: Chardonnay.

*Chablis*- dominated by a unique soil known as Kimmeridgian Marl, which is composed of limestone and sea fossils. These wines are laser-focused and generally not heavily oaked.

*Cote d'Or*- translated to the “golden slope,” these are the most storied vineyards of Burgundy, and while they are still planted to Chardonnay, the wines tend to carry more new oak, and are more floral and citrus-driven than Chablis, with added weight and body.

341	DOMAINE AP DE VILLAIN, BOUZERON ALIGOTE 2017	78
-----	--	----

*Bourgogne Blanc*- though technically these wines can come from anywhere in Burgundy, often times they are the younger vines of top producers from the above regions.

347	MICHEL NIELLON 2017	144

# INTERNATIONAL WHITE

*GERMANY*- as far north as viticulture is possible, only long days and the mitigating effect of major rivers make great wine possible here. While there are many grapes grown, Riesling is king, With plenty of lift and a range of sweetness levels, these are some of the most food-friendly wines in the world.

*GEORGIA*- dubbed “the birthplace of wine,” wine-making in the country dates back at least 8000 years. Traditional techniques are still widely used, most notably the use of “kvevrie,” clay pots used for fermentation, often buried in the ground and left for years.

355	RKATSITELI-MTSVANE, TELEDA ORGO, “DILA-O” 2018 [ORANGE WINE]	44
-----	--	----

*GREECE*- though, in the ancient world, Greece was one of the world’s foremost producers of wine, the nation’s wines today are just starting to see re-emergence. Thanks to lots of sunshine and plenty of coastal influence, these wines offer great value and will certainly intrigue your palate!

358	PLYTO, LYRARAKIS, PSARADES VINEYARD, CRETE 206	56
-----	--	----

*ITALY*- with more indigenous varietals than any other country, and a wide range of climatic influences, there are a wealth of options available, from cool climate whites in the north, to their riper cousins in the south.

363	FRIULANO, MIANI, COLLI ORIENTALI DEL FRULI 2016	133

370	CHARDONNAY, HAMILTON RUSSEL VINEYARDS, HEMEL-EN-AARDE VALLEY, SA 2017	75
372	SAUVIGNON BLANC, GREYWACKE, MARLBOROUGH, NEW ZEALAND 2018	54

*SOUTH AMERICA*- high elevation and the influence of the Andes mountains are mitigating factors to the warmth of the climate, so that the resulting wines are well-balanced between ripe fruit and crisp acidity.

380	BLANCO DE PINOT NOIR, ANIELLO “SOIL,” PATAGONIA, 2017	47
-----	---	----

*AUSTRIA*- with over 4000 years of winemaking history, the Austrians have perfected the vinification of the native and most-planted varietal, Gruner Veltliner. With soaring acidity and an herbal flair, these wines pair perfectly with food or an afternoon on the patio.

# ROSE

Made from [mostly] red grapes in a variety of styles, rose is made by limiting skin contact with the juice prior to fermentation. Thus, the wine retains the aromas and flavors of a red wine with the structure and freshness of a white. Contrary to the sugary concoction popular in the 70s in the US, the old world has been making dry, crisp, and refreshing rose for centuries. Pop open one of these examples from around the world and enjoy rose all day!

613	STEPHANE AVIRON, BEAUJOLAIS VILLAGES 2017	48
614	DOMAINE DU PAVILLON DE CHAVANNES, COTE DE BROUILLY 2017	54

# FRENCH RED, RHONE & SOUTHERN FRANCE

*NORTHERN RHONE*- granite slopes and a fierce climate make these some of the most unique wines on Earth. This is the home of Syrah that is dominated by savory meat, spice, garrigue and earth.

618	DELAS FRERES, CROZES-HERMITAGES, “DOMAINE DES GRANDS CHEMINS” 2015	112
619	MICHEL CHAPOUTIER, CROZES-HERMITAGE, “VARONNIERS” 2016	180

622	FRANCOIS VILLARD, MAIRLANT, SAINT JOSEPH 2015	79
625	ALAIN VOGUE, CORNAS LES CHAILLES 2014	83

*SOUTHERN RHONE*- blends which are traditionally based on Grenache with a host of other grapes, more fruit than the wines from the North, with more alcohol and peppery spice.

635	PIEDLONG, CHATEAUNEUF-DU-PAPE 2015	124
637	MONTIRIUS, COTES-DU-RHONE 2016	48

*LANGUEDOC-ROUSSILLON*- the single biggest wine-producing region in the world, with numerous grape varietals, you are sure to find something of great value here.

646	DOMAINE D’AUPHILAC, MOURVEDRE/GRENACHE/SYRAH. MONTPEYROUX 2013	56

*SOUTHERN FRANCE*- climate makes these wines ripe, but often there is a bit of rusticity as well.

## FRENCH RED, BORDEAUX

*LOIRE VALLEY*- with ancient soils made of chalky limestone, the famous tuffeau of the Loire makes for mineral driven, earthy reds.

653	OLGA RAFFAULT, LES PICASSES, CHINON 2014	66
654	TARGE, SAUMUR-CHAMPIGNY 2014	61

*BORDEAUX, LEFT BANK*- ideally suited for Cabernet Sauvignon, these gravelly soils are the key to the longevity and pedigree of these wines, earthy with integrated oak and subtle fruit.

656	CHATEAU BELLEGRAVE, MEDOC 2016	61
657	CHATEAU DUHART-MILON, PAULLIAC 1996	279
661	DOMAINE BARONS DE ROTHSCHILD, "LEGENDE" 2014	107
663	CHATEAU TRONQUOY-LALANDE, SAINT-ESTEPHE 2014	94

*BORDEAUX, RIGHT BANK*- with clay and limestone dominating, Merlot is at home here. These wines are framed by oak with perhaps a subtle sanguine note, and are driven by earth.

670	CHATEAU LE CLARIOT 2016	50
671	CHATEAU BADINE DE LA PATACHE, POMEROL 2014	77
672	DOMAINE CHANTE ALOUETTE CORMEIL, SAINT-EMILION GRAND CRU 2004	86
673	SAINT ANDRE CORBIN, SAINT-EMILION-SAINT-GEORGES 2016	62

# ITALIAN RED, PIEDMONT

*PIEDMONT*- directly translated to “the foot of the mountain,” the hills of Piedmont are nestled among the Alps. The climate is cool and the wines are some of Italy’s most noble and sought-after.

*BARBERA*- the workhorse of Piedmont, this is the most-planted and consumed red here: often underrated and an amazing value.

680	CONTERNO GIACOMO, BARBERA D’ALBA, CASCINA FRANCA 2014	112
683	VIETTI, BARBERA D’ASTI 2016	55

*NEBBIOLO*- the most noble red of Italy, these wines are earthy, structured, and elegantly floral. They are generally best with food. *Barbaresco* is known as the Queen, traditionally softer than Barolo with calcareous marl as a base soil. *Barolo* is known as the King of wines and the wine of kings, traditionally more structured than Barbaresco though the line is becoming blurry as technique becomes more prominent than terroir.

691	LA GANGHJIA, BARBARESCO 2016	117
697	COGNO, BAROLO RISERVA, RAVERA, “VIGNA ELENA” 2013	198
701	DIEGO CONTERNO, BAROLO, “GINESTRA” 2013	123

## ITALIAN RED, VENETO

*VALPOLICELLA*- home to Lake Garda, the reds here are a blend based on Corvina with a host of other varietals mixed in. They are generally medium-bodied, though there are a few unique styles of wine produced due to the influence of the lake.

716 DAL FORNO ROMANO, SUPERIORE 2006 167

*AMARONE*- made by the appassimento process, these grapes are dried for months, concentrating fruit and sugar and helping to develop amazing aromatics. The wine is then fermented dry, generally resulting in higher alcohol.

720 ALLEGRINI, CLASSICO 2014 121

721 BUGLIONI, CLASSICO 2009 127

722 DAL FORNO ROMANO 2006 676

*VALPOLICELLA RIPASSO*- these wines go through two fermentations: fresh fruit is fermented for several days before a second fermentation on skins from dried fruit previously used for Amarone. The result is often referred to as “baby Amarone:” a fresher version with ripe lush fruit and complexity well above its price point.

726 TOMASSO BUSSOLA, CA' DEL LAITO, SUPERIORE 2015 55

*VENETO IGT*- much like Valpolicella but with less rules & regulations.

728 ALLEGRINI, PALAZZO DELLA TORRE 2014 45

## ITALIAN RED, TUSCANY

*TUSCANY*- home to some of Italy's most sought-after wines, Sangiovese is the grape of choice here. Some are 100% single varietal like Brunello, others are allowed to blend in international and local varietals. Generally, they are earthy and structured.

*MONTALCINO*- situated just below Chianti, the hill of Montalcino has been settled since Etruscan times. The warmest and driest region in Tuscany, the wines of Montalcino are made from the Brunello clone of Sangiovese, and yield age-worthy wines with intense color and concentration and bright acidity. These are among the most highly-regarded wines of Italy.

730	BRUNELLO, BIONDI SANTI 2012	291
731	BRUNELLO, DONATELLA CINELLI COLOMBINI 2013	112

734	BRUNELLO, VAL DI SUGA, VIGNA DEL LAGO 2013	154
735	BRUNELLO, VAL DI SUGA, VIGNA SPUNTALI 2013	154

*CHIANTI CLASSICO*- perhaps the most quality-driven sub-region within Chianti DOC, the producers here have struggled to revive their reputation amidst an international market that has long associated their wines with the bulk-produced table wines bottled in straw baskets. Today, the winemakers that mark their bottles with the Black Rooster are putting an increased emphasis on organic and responsible viticulture and traditional winemaking practices, allowing the biodiversity and soul of the region to speak for itself in the bottle.

736	CASTELLO DI VOLPAIA 2015	49

744	QUERCIABELLA 2016	84

*IGT/"SUPER-TUSCANS"*- this classification was created as a reaction to some of the top wines in Italy being bottled as table wine, and allows more freedom in vinification and international varietals to be used at the discretion of the winemaker.

752	AMPELEIA, UNLITRO 2018	48
755	GAJA, CA' MARCANDA MAGARI 2016	136
756	MONTEBERNARDI, COLLI DELLA TOSCANA CENTRALE 2016	82

## ITALIAN RED

*FRIULI-VENEZIA GIULIA*- the northeastern corner of Italy, the wines of this area grow nestled in a hilly hermit's oasis, bordered by Slovenia, Austria and the Veneto. Thanks to the proximity to both the Alps and the Adriatic Sea, warm days and cool nights provide a long growing season and preserve natural acidity, so that light-bodied, aromatic white wines are easily produced, and Pinot Grigio has been all but synonymous with the DOC since the 1980s. The same climatic and geological factors which influence the whites make for some beautifully complex and unique reds, which are hard to come by but well worth the discovery.

762      MIANI, COLLI ORIENTALI, 2013      172

*UMBRIA*- bordering Tuscany and just north of Rome, the wines of Umbria are certainly less-traveled and can be a source of excellent value. Around the small hill-side village of Montefalco grows the native anti-oxidant powerhouse Sagrantino, structured and black-fruit-driven, begging to be paired with an equally assertive meal.

771      ARNALDO CAPRAI, MONTEFALCO SAGRANTINO 2015      124

*SICILY*- perhaps the most innovative winemaking area in all of Italy, some of these vineyards are perched on an active volcano, while others hug the sea.

782      AZIENDA AGRICOLA COS, CERASUOLO DI VITTORIA CLASSICO 2015      77

# INTERNATIONAL RED, OLD WORLD

*GERMANY*- known for its incomparable white wines, the cold climate and rocky soils also help to make some great, mineral-driven red wines out of Pinot Noir, known locally as “Spatburgunder.”

790 WEINGUT DAUTEL ESTATE, SPATBURGUNDER 2016 58

*PORTUGAL*- long-known for its legendary sweet wines, Portugal benefits from the sunshine, coastal influences and an array of special soils resulting in some distinctive dry wines as well.

792 ADEGA DE BORBA, ARAGONEZ/ALICANTE BOUSCHET, ALENTEJO RESERVE 2013 47

*SPAIN*- though Spain has a long history of wine production, it is only recently that Spain has become a hot bed of innovation and creativity. With a host of indigenous varieties, there is something here for everyone.
