*"I drink it when I'm happy and when I'm sad.  
Sometimes I drink it when I'm alone.  
When I have company, I consider it obligatory.  
I trifle with it if I'm not hungry and drink it when I am.  
Otherwise, I never touch it - unless I'm thirsty." -Lilly Bollinger*

**CHAMPAGNE** With a storied history, Champagne is produced at the limits of modern viticulture and is more a result of a process than a place. The method champenoise - characterized by a second fermentation in the bottle - is precisely how Champagne gets its bubbles, and, combined with a marginal climate and a uniquely chalky soil, the results can be stunning. We at Harvest have always been believers that any meal worth remembering starts with bubbles. Allow us to make believers out of you as well.

## DOMESTIC WHITE

**CHARDONNAY** Certainly one of the most planted grapes in the world, Chardonnay has as many expressions as there are places that grow it. California has long been the benchmark for the traditional American expression, which is associated with a richer, riper style, although now many producers are exercising restraint and bringing elegance to the forefront. Producers elsewhere in the US are following suit, allowing the grape to reach its full potential in the Vineyard and speak for itself in the bottle.

## THE LOIRE VALLEY

Situated around the longest river in France, the Loire Valley is an enchanting place that has been largely untouched by time--the wines are much the same as they were a century ago. With a focus on acidity, these wines are meant for the table.

**SAUVIGNON BLANC** the grape thrives on the chalky mineral soils of the Eastern Loire, and in certain places you can find pockets of flint, locally known as silex, that help lend the grape its unique expression.

305 RAIMBAULT-PINEAU, LES LUMEAUX, POUILLY-FUME 2017 87

**CHENIN BLANC** not as racy as Sauvignon Blanc, Chenin finds its most noble representation on the Loire, sometimes with just a hint of sweetness to tame its driving acidity.

## ALSACE

Heavily influenced by the Vosges mountains, this is the sunniest area in all of France. The sunlight helps mitigate the northern climate and provides a unique influence on the grapes that thrive here.

**PINOT GRIS** riper and fuller-bodied than their Italian counterparts, and often vinified just short of dry.

321 HUGEL, CLASSIC 2016 61

**GEWURTZTRAMINER** the aromatic powerhouse, these are full-bodied with a hint of spice.

322 SCHLUMBERGER, KESSLER GRAND CRU 2014 141

**RIESLING** acid-driven with bright, lifted aromatics, these tend to be drier than their German counterparts.

## RHONE VALLEY

This region has played a big part in the history of wine; divided into a northern and a southern half, it brings a wide variety of styles to enjoy. Known more for its red wines, the whites of this region can hold their own, providing rich and intense fruit.

## BURGUNDY

Perhaps the most sought-after whites in all the world, nowhere else is there so much diversity in one grape. From Chablis to the Macon, the differences are staggering while the grape remains the same: Chardonnay.

**CHABLIS** dominated by a unique soil known as Kimmeridgian Marl, which is composed of limestone and sea fossils. These wines are laser-focused and generally not heavily oaked.

335	DOMAINE VOCORET ET FILS, BLANCHOT GRAND CRU 2015	134

**COTE D'OR** translated to the “golden slope,” these are the most storied vineyards of Burgundy, and while they are still planted to Chardonnay, the wines tend to carry more new oak, and are more floral and citrus-driven than Chablis, with added weight and body.

**MACONNAIS** the most-southerly sub-region of Burgundy, the terroir is defined by rolling hills in the north and rocky limestone in the south. The wines are crisp and clean and often delicate, and offer an excellent value.

## INTERNATIONAL WHITE

**GERMANY** as far north as viticulture is possible, only long days and the mitigating effect of major rivers make great wine possible here. While there are many grapes grown, Riesling is king. With plenty of lift and a range of sweetness levels, these are some of the most food-friendly wines in the world.

**GREECE** though, in the ancient world, Greece was one of the world's foremost producers of wine, the nation's wines today are just starting to see re-emergence. Thanks to lots of sunshine and plenty of coastal influence, these wines offer great value and will certainly intrigue your palate!

# ROSE

Made from [mostly] red grapes in a variety of styles, rose is made by limiting skin contact with the juice prior to fermentation. Thus, the wine retains the aromas and flavors of a red wine with the structure and freshness of a white. Contrary to the sugary concoction popular in the 70s in the US, the old world has been making dry, crisp, and refreshing rose for centuries. Pop open one of these examples from around the world and enjoy rose all day!

## PINOT NOIR

A finicky grape, Pinot Noir is very particular about where it's grown. Driven by red fruit and lifted florality, there are a range of styles produced in the United States--some are more structured than others with a varying range of oak influence as well.

**RUSSIAN RIVER VALLEY** dominated by Goldridge loam soils and located in a cool pocket of Sonoma, the wines from Russian River tend to be more delicate and floral.

404	WILLIAMS SELYEM, WESTSIDE ROAD NEIGHBORS 2017	151

**SONOMA COAST** the most rural appellation in Sonoma, many of these vineyards are located in the clouds, and the wines show a more brooding, structured character.

# FRENCH RED, BURGUNDY

## BURGUNDY

the home of Pinot Noir...these wines are lifted and floral. Every village has a different personality: from the elegance of Chambolle-Musigny to the brooding power of Morey-St-Denis, there is an option for everyone.

**COTE-DE-NUITS** based on Jurassic limestone and marl, the most structured Pinot Noirs of Burgundy.

586	JF MUGNIER, NUITS-SAINT-GEORGES, CLOS DE LA MARECHALE 1ER CRU 2016	192

601	GIRAUDON, BOURGOGNE CHITRY 2017	55
604	MICHEL SARRAZIN 2018	58

**COTE CHALONNAISE** rolling hills make for softer, fruitier wines.

609	PARIZE PERE ET FILS, GIVRY, CLOS LES GRANDS VIGNES 1 <sup>ER</sup> CRU 2016	71

**BEAUJOLAIS** a far cry from the nouveau you might know, more like Burgundy with more fruit, these wines are excellent values.

613	STEPHANE-AVIRON, BEAUJOLAIS VILLAGES 2017	48
614	DOMAINE DU PAVILLON DE CHAVANNES, COTE DE BROUILLY 2017	54

## FRENCH RED, RHONE & SOUTHERN FRANCE

**NORTHERN RHONE** granite slopes and a fierce climate make these some of the most unique wines on Earth. This is the home of Syrah that is dominated by savory meat, spice, garrigue, and earth.

618	E GUIGAL, BRUNE ET BLONDE DE GUIGAL, COTE-ROTIE	2015	127
619	DELAS FRERES, DOMAINE DES GRANDS CHEMINS, CROZES-HERMITAGE	2015	112

621	PAUL JABOULET AINE, DOMAINE DE THALABERT, CROZES-HERMITAGE	2015	95
622	FRANCOIS VILLARD, MAIRLANT, SAINT JOSEPH	2015	79
625	ALAIN VOGUE, CORNAS, LES CHAILLES	2014	83

**SOUTHERN RHONE** blends which are traditionally based on Grenache with a host of other grapes, more fruit than the wines from the North, with more alcohol and peppery spice.

635	MONTIRIUS, LA MUSE PAPILLES, COTES-DU-RHONE	2017	48
637	DOMAINE LA ROQUETE, PIEDLONG, CHATEAUNEUF-DU-PAPE	2015	124

**LANGUEDOC-ROUSSILLON** the single biggest wine-producing region in the world, with numerous grape varieties, you are sure to find something of great value here.

651	DOMAINE DE LA GRANGE DES PERES, SYRAH/MOURVEDRE/CABERNET, HERAULT	2010	205

## FRENCH RED

**BORDEAUX, LEFT BANK** ideally suited for Cabernet Sauvignon, these gravelly soils are the key to the longevity and pedigree of these wines, earthy with integrated oak and subtle fruit.

656	CHATEAU BELLEGRAVE, MEDOC	2016	61
657	CHATEAU TRONQUOY-LALANDE, SAINT-ESTEPHE	2014	94
661	DOMAINES BARONS DE ROTHSCHILD, LEGENDE, PAUILLAC	2015	107
662	CHATEAU DUHART-MILON, PAULLIAC	1996	279

**BORDEAUX, RIGHT BANK** with clay and limestone dominating, Merlot is at home here. These wines are framed by oak with perhaps a subtle sanguine note, and are driven by earth.

670	CHATEAU LE CLAIROT	2016	50
671	BADINE DE LA PATACHE, POMEROL	2014	77
673	CHATEAU SAINT-ANDRE CORBIN, SAINT-GEORGES-SAINT-EMILION	2017	62

## PIEDMONT

directly translated to “the foot of the mountain,” the hills of Piedmont are nestled among the Alps. The climate is cool and the wines are some of Italy’s most noble and sought-after.

**BARBERA** the workhorse of Piedmont, this is the most-planted and consumed red here, often underrated and an amazing value.

680 GIACOMO CONTERNO, BARBERA D’ALBA, VIGNA FRANCIA 2015 112

683 VIETTI, BARBERA D’ASTI, TRE VIGNE 2017 55

**NEBBIOLO** the most noble red of Italy, these wines are earthy, structured, and elegantly floral. They are generally best with food. Barbaresco is known as the Queen, traditionally softer than Barolo with calcareous marl as a base soil. Barolo is known as the King of wines and the wine of kings, traditionally more structured than Barbaresco though the line is becoming blurry as technique becomes more prominent than terroir.

691 LA GANGHJIA, BARBARESCO 2016 117

701 BENEVELLI PIERO, BAROLO, RAVERA DI MONFORTE 2013 111

702 DIEGO CONTERNO, BAROLO, GINESTRA 2013 123

703 ELVIO COGNO, BAROLO, RAVERA, BRICCO PERNICE 2014 188

706 VIETTI, BAROLO, RAVERA 2015 276

## VENETO

**VALPOLICELLA** home to Lake Garda, the reds here are a blend based on Corvina with a host of other varieties mixed in. They are generally medium-bodied, though there are a few unique styles of wine produced due to the influence of the lake.

716 DAL FORNO ROMANO, VALPOLICELLA SUPERIORE 2006 167

**AMARONE** made by the appassimento process, these grapes are dried for months, concentrating fruit and sugar and helping to develop amazing aromatics. The wine is then fermented dry, generally resulting in higher alcohol.

720 ALLEGRINI, CLASSICO 2014 154

722 DAL FORNO ROMANO 2006 676

**VALPOLICELLA RIPASSO**- these wines go through a second fermentation on skins from dried fruit previously used for Amarone. The result is often referred to as “baby Amarone:” a fresher version with ripe lush fruit and complexity well above its price point.

726 TOMASSO BUSSOLA, CA’ DEL LAITO, CLASSICO SUPERIORE 2015 55

**VENETO** much like Valpolicella but with less rules & regulations.

20 728 ALLEGRINI, PALAZZO DELLA TORRE 2014 45

## TUSCANY

Home to some of Italy's most sought-after wines, Sangiovese is the grape of choice here. Some are 100% single varietal like Brunello, while others are allowed to blend in international and local varieties. Generally, they are earthy and structured.

**MONTALCINO** situated just below Chianti, the hill of Montalcino has been settled since Etruscan times. The warmest and driest region in Tuscany, the wines of Montalcino are made from the Brunello clone of Sangiovese, and yield age-worthy wines with intense color and concentration and bright acidity. These are among the most highly-regarded wines of Italy.

731	BRUNELLO, DONATELLA CINELLI COLOMBINI 2014	112
734	BRUNELLO, VAL DI SUGA, VIGNA DEL LAGO 2013	154
735	BRUNELLO, VAL DI SUGA, VIGNA SPUNTALI 2013	154

**CHIANTI CLASSICO** perhaps the most quality-driven sub-region within Chianti DOCG, the producers here have struggled to revive their reputation amidst an international market that has long associated their wines with the bulk-produced table wines bottled in straw baskets. Today, the winemakers that mark their bottles with the Black Rooster are putting an increased emphasis on organic and responsible viticulture and traditional winemaking practices, allowing the biodiversity and soul of the region to speak for itself in the bottle.

736	CASTELLO DI VOLPAIA 2018	49
739	FELSINA, BERARDENGA, RISERVA 2015	76
740	MONTE BERNARDI, RETROMARCIA 2016	55
741	MONTE BERNARDI, SA'ETTA, RISERVA 2015	114
742	MONTERAPONI 2017	87
744	QUERCIABELLA 2015	84

**IGT / SUPER-TUSCANS** this classification was created as a reaction to some of the top wines in Italy being bottled as table wine, and allows more freedom in vinification and international varieties to be used at the discretion of the winemaker.

752	AMPELEIA, UNLITRO 2018	48
755	GAJA, CA'MARCANDA, MAGARI 2016	136
756	MONTE BERNARDI, COLLI DELLA TOSCANA CENTRALE 2016	82

## ITALIAN RED

**FRIULI-VENEZIA GIULIA** the northeastern corner of Italy, the wines of this area grow nestled in a hilly hermit's oasis, bordered by Slovenia, Austria, and the Veneto. Thanks to the proximity to both the Alps and the Adriatic Sea, warm days and cool nights provide a long growing season and preserve natural acidity, so that light-bodied, aromatic white wines are easily produced, and Pinot Grigio has been all but synonymous with the DOC since the 1980s. The same climatic and geological factors which influence the whites make for some beautifully complex and unique reds, which are hard to come by but well worth the discovery.

762 MIANI, COLLI ORIENTALI 2013 172

**UMBRIA** bordering Tuscany and just north of Rome, the wines of Umbria are certainly less-traveled and can be a source of excellent value. Around the small hillside village of Montefalco grows the native anti-oxidant powerhouse Sagrantino, structured and black-fruit-driven, begging to be paired with an equally assertive meal.

771 ARNALDO CAPRAI, VALDIMAGGIO, MONTEFALCO SAGRANTINO 2015 124

**SICILY** perhaps the most innovative winemaking area in all of Italy, some of these vineyards are perched on an active volcano, while others hug the sea.

782 COS, CERASUOLO DI VITTORIA CLASSICO 2015 77

788 TORNATORE, ETNA ROSSO, PIETRARIZZO 2016 72

# INTERNATIONAL RED, OLD WORLD

GERMANY known for its incomparable white wines, the cold climate and rocky soils also help to make some great, mineral-driven red wines out of Pinot Noir, known locally as “Spatburgunder.”

790 DAUTEL, SPATBURGUNDER, WURTTEMBERG 2016 58

PORTUGAL long-known for its legendary sweet wines, Portugal benefits from the sunshine, coastal influences and an array of special soils resulting in some distinctive dry wines as well.

791 ADEGA DE BORBA, ARAGONEZ/ALICANTE BOUSCHET, ALENTEJO RESERVE 2013 47

792 RAMOS PINTO, DUAS QUINTAS, TOURIGA RORIZ/FRANCA/NACIONAL, DOURO 2017 52

SPAIN though Spain has a long history of wine production, it is only recently that it has become a hotbed of innovation and creativity. With a host of indigenous varieties, there is something here for everyone.
